David Kim

Full-stack Developer

+64 21-172-0470
khk980703@hotmail.com
1/33 Argo Drive,
Auckland, 2012

I'm a full-stack web developer and a recent graduate of Bootcamp course at Dev Academy. Through working on multiple group projects, I'm familiar with how real world development projects work and feel confident collaborating in team environments.

Outside of coding, I enjoy bouldering and various puzzles, both of which naturally brings strong problem-solving mindset and are part of what attracts me to software development.

I'm craving for continuous learning and growing as a professional developer.
